

Type your title here

John Joseph¹ and Purv Sardar²

¹First address for correspondence

²Second Address for correspondence

The total abstract size is to be inside a box of width 6" and height of 8". The abstract can be written using either Microsoft word or Latex. The font size used in the abstract should be 12 pts. The electronic files can be uploaded using the abstract submission page at <http://www.jncasr.ac.in/op2005/Abstract.html>, Before submitting the abstract it is mandatory to register your name and details at <http://www.jncasr.ac.in/op2005/regist.html> . The file name is generated using the first and last name typed on the upload page. In the event that two names are identical the participant would be told that a file already exists and should change the name. The author can just type a character after either first or last name, like a number or a special character. You can include the references in your abstract and you can give the list of references at the end of the page [1].One can use word document template given at <http://www.jncasr.ac.in/op2005/abstract.doc>, to type in your abstract. We would like to point out that the page setup uses an A4 size paper (8.27"x11.69"). Since the final output would be in A4 size paper, we request you to retain this format for the file you are sending us. We hope to hear from you soon and we would like to see you at OP2005.
