Clevergene

Hands-On Workshop on RNA-seq and Data Analysis

RNA sequencing (RNA-seq) is now a gold standard for gene expression analysis at a genome-wide scale. JNCASR and Clevergene are organizing a four-day hands-on workshop to provide an understanding of the workflow for the RNA-seq experiment. This workshop will focus on wet-lab experiments as well as data analysis aspects of the RNA-seq studies.

The workshop plans will cover:

- Experimental design

- RNA-seq library preparation

- Introduction to Linux and basic commands

- Data analysis tools and workflows

- Hands-on practice sessions

- Troubleshooting guidelines

MAY
8th - 11th

JNCASR

Registration Fee: This fee will include the study material, food, refreshments and accommodation.

Students/Project Trainee	Postdoc/Doctors	Industry
INR 10,000 + GST (18%)	INR 12,000 + GST (18%)	INR 20,000 + GST (18%)

Organizers:

Kushagra Bansal, JNCASR
Anuranjan Anand, JNCASR
Tony Jose, Clevergene
Rajasekhara Reddy, Clevergene
