EC_2024_Call for Applications.pdf; ATT00001.txt;

We are pleased to inform you that applications are **now open** for the 2024 **OWSD Early Career fellowships for women scientists from the developing world**. This is a wonderful opportunity for women scientists who have completed their PhDs and are in the early stages of their careers to receive financial support, mentoring, and networking opportunities.

Fellows will receive up to USD 50,000 over two years to pursue their research interests. During the 2-year fellowship, they will also build on their leadership, management, and communication and outreach skills, and develop connections with a variety of public and private sector partners to potentially convert their research into marketable products or guarantee its impact on a broader scale.

By supporting an increasing number of Early Career fellows, OWSD is creating a network of outstanding women scientists who can provide mentorship and be role models for the next generation of women leaders in STEM.

A list of frequently asked questions is available [here](#).

Eligibility

Applicants must have been resident in one of the eligible [Science and Technology Lagging Countries \(STLCs\)](#) for at least 5 years. The 5 years do not have to be consecutive.

At the time of application, applicants must provide proof of being employed at the university or research institute where the research project will be carried out, which must also be in one of the eligible STCs. If employment has not yet commenced, a proof of employment offer and confirmation of acceptance is required.

Applicants must hold a PhD in one of the following fields, awarded not more than 10 years prior to application:

- Agricultural Sciences
- Astronomy, Space and Earth Sciences
- Biological Systems and Organisms
- Chemical Sciences
- Computing and Information Technology
- Engineering Sciences
- Mathematical Sciences
- Medical and Health Sciences
- Neurosciences
- Physics
- Structural, Cell and Molecular Biology

See website for all details

Deadline for applications: 14 March 2024

For full information on the eligibility and evaluation criteria and for submitting an application, please check the attached document or visit [this page](#).
