The Co-ordinator  
TWAS-CASAREP

Dear Sir,

It is our pleasure to inform you that the Bangladesh Academy of Sciences (BAS), in collaboration with the Association of Academies and Societies of Sciences in Asia (AASSA), is going to organize a hybrid (in-person as well as webinar) Symposium on 'Nature for Sustainable Development' to be held on 07-08 October 2023 at the National Science & Technology Complex, Agargaon, Dhaka-1207. The Symposium is supported by the Inter-Academy Partnership (IAP) and it has been planned to address the following strategic objectives: i. Understand the importance of environmental health and promotion of national and international dialogue and debate for resilience building and mitigation using nature; and ii. Dissemination of findings on issues that involve all sectors and societies by partnering with international agencies and science academies, inclusive of young academies and women in sciences. The Symposium is expected to provide unique multidisciplinary environment and opportunities for the relevant scientists, policy makers, and opinion leaders to exchange views and ideas among themselves on this urgent as well as emerging topic.

On behalf of the Organizing Committee of the Symposium, we cordially request you to kindly make an arrangement to circulate for online participation in the Event. The Flyer and the Program are attached. It may be noted that TWAS-CASAREP is one of our Cooperating Organizations.
