

PhD Scholarship Programme for Climate Research

"We have been given a warning by Science and a wake-up call by Nature: it is up to us now to heed them."

Bill McKibben

for Students from Least Developed Countries (LDCs)

Thanks to the support of Sida, TWAS launches a new programme: **PhD Scholarships for Climate Research for Students from LDCs**.

The World Academy of Sciences (TWAS) – for the advancement of science in developing countries, is a UNESCO programme unit aiming to build capacity in science and technology in the Global South (www.twas.org).

The Swedish International Development Cooperation Agency (Sida) – is a government agency. Its mission is part of Sweden's national policy for global development and its activities are funded through Swedish tax revenue. At the international level, Sida works to reduce poverty around the world by allocating resources and knowledge in Africa, Asia, Europe, and Latin America (<https://www.sida.se/en>).

The first call for applications for PhD Scholarships for Climate Research, available to students from the Least Developed Countries (LDCs), has just opened.

With this new programme, PhD scholarships will be awarded to promising candidates from LDCs (<https://unctad.org/topic/least-developed-countries/list>). Applicants must have obtained their MSc in a scientific area relevant to the topic of climate change – which is broad and interdisciplinary – or they must obtain it by December 2022.

Deadline: 5 October 2022.

Age limit: 35 Male, 40 Female.

Dear Regional Partners,

May we kindly ask you to disseminate this exciting new PhD programme in your region and via your networks as the call is now open.

Many thanks.

Best regards,

Cristina

TWAS Regional Partners office

Thanks to the support of Sida, TWAS is pleased to announce a **new programme that will award PhD scholarships for Climate Research to promising candidates from Least Developed Countries (LDCs - <https://unctad.org/topic/least-developed-countries/list>)**: the "TWAS-Sida PhD Scholarships for Climate Research for students from LDCs".

Deadline: 5 October 2022. **Age limit:** 35 Male, 40 Female. **Nationality:** LDCs only. **Minimum degree held:** MSc by December 2022.

Full details about this programme are available at:

<https://twas.org/opportunity/twas-sida-phd-scholarship-programme-climate-research-students-least-developed-countries>

Please, we ask for your help to disseminate this scholarship opportunity for students from LDCs as widely as possible.

A brochure in PDF is attached which you may forward to interested candidates.

SAVE THE DATE - OPPORTUNITY TO ASK QUESTIONS RELATED TO YOUR APPLICATION!

TWAS will hold a webinar on **14 September 2022 at 11 am CET** to present the programme and its mechanisms.

On that occasion, TWAS will answer any doubts and questions from potential applicants.

You can register for the webinar at the link below:

https://unesco-org.zoom.us/webinar/register/WN_Q2I-UqHjQayuan9Ga3Vk2A
